WHO WE ARE

Named after the mountains.

Kazhan Advertising designs, makes and installs signs, billboards, exhibition booths, vehicle wraps and branding for businesses in Erbil and across the Kurdistan Region. All of it is made in our own factory.

Our story

Kazhan Advertising was formerly Kurdistan Advertising. In July 2026 the company, its factory and its whole team took the name Kazhan Advertising: the same people and the same machines, making signs in Erbil since 2015.

"Kazhan" means mountains. For us, it means aiming higher.

Based in Erbil

We're a local team. You deal with us directly, things move faster, and we know local conditions: the heat, the sun, and the Kurdish-language sign rules businesses now have to follow.

One company, the whole job

Design, cutting, welding, printing, lighting and installation are done by our own people. You have one team to talk to, from the first sketch to the finished sign.

You approve first

You see and approve the design before we cut or build anything, so what we install is what you agreed to.

Erbil's Kurdish sign rule

Shop and office signs in Erbil now need Kurdish. We add Kurdish to signs you already have, or make new signs that follow the rule.

For procurement teams: we provide registration documents and formal written quotations with every price on request.

WHAT WE MAKE

Our services

Signage

Illuminated channel letters, LED pylons, shopfront signs and facade cladding, built on stainless-steel structures.

3D letters · Pylons · Facades · LED screens

Outdoor advertising

Billboards and large outdoor displays on steel frames, made to keep their shape and color in extreme heat and strong sun.

Billboards · Large-format displays

Exhibition booths

Booths designed in 3D, with a blueprint drawn before we cut a single panel, then built and installed at the fair.

Design · Build · Install

Vehicle branding

Full and partial wraps, fleet graphics and lettering for cars, vans, trucks and buses, printed in our factory and fitted by our team.

Full wraps · Partial wraps · Fleets

Interior and office branding

Reception logos, wall graphics, frosted glass and signs that help people find their way.

Logo walls · Glass · Wayfinding

Branding and print

Business cards, company stationery, printed materials and branded promotional items.

Cards · Invoice books · Roll-ups

CNC, laser and custom production

Parts, tools, fixtures and one-off products, cut and built to your measurements, even if you only need one.

CNC routing · Laser cutting

Sign repair and maintenance

Letters that don't light, a faded face, loose panels or a sign that needs to move. We fix signs made by other companies too.

LED repairs · Moving signs

Not sure what you need? Tell us about your business and we'll suggest what fits it and your budget.

3D DESIGN

See it in 3D before we build it

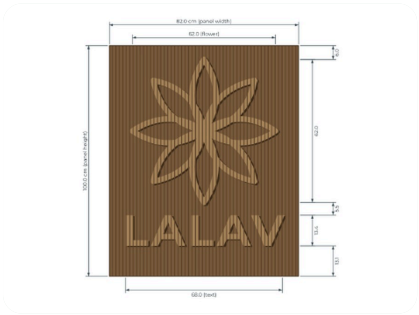

We design your sign, shopfront, showroom or booth in 3D, so you can see exactly how it will look. You approve it, then our factory builds it from the same drawing.

From the design to the real thing

A Hikvision display unit. The top picture is our 3D design, the bottom one is what we built and installed.

- Signs and letters on a photo of your building
- Shopfronts and facades
- Showrooms, display walls and counters
- Exhibition booths
- Sizes and measurements on the drawing

BUSINESS CARDS AND PRINT

Business cards, invoice books and company paper

Printed in our own factory in Erbil, from one box of cards to invoice books for every branch.

Business cards

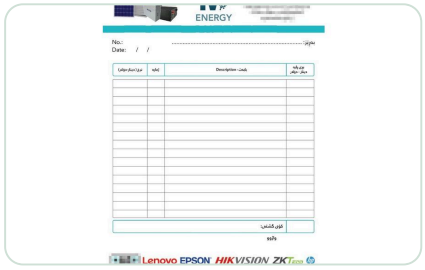

Cards with special finishes

Two-sided cards

Invoice books

Company invoice books

Labels and stickers

What we print

Business cards	One-sided or two-sided, for one person or the whole team.
Invoice books	Carbonless, in 2 or 3 copies, numbered in order and bound with a cover.
Receipt and voucher books	Numbered books for payments, deliveries and vouchers.
Letterheads	Company paper for letters, offers and contracts.
Envelopes	Printed to match your letterheads, in the sizes you use.
Company stamps	With your logo and company name.

Card finishes

Matte or glossy	Matte for a soft look, glossy for bright colours and photos.
Spot UV and gold foil	A shiny or metallic logo that catches the light.
Thick and textured paper	A heavier card that feels solid in the hand.
Plastic (PVC)	Waterproof, for VIP, membership and loyalty cards.

Send us your logo or your old card. We design it, you approve it, then we print.

PROMOTIONAL PRODUCTS

See the full catalog with every product and price at **kazhan.krd/catalog**. Pick what you need and send us the list on WhatsApp.

OUR FACTORY

Everything made in our own factory

We have a large factory in Erbil where we do the whole job ourselves, so we control the quality, the materials and the timeline.

CNC routing

Letters, panels and shapes cut from acrylic, wood, aluminum composite and foam.

Laser cutting

Fine detail and clean edges for logos, small letters and display parts.

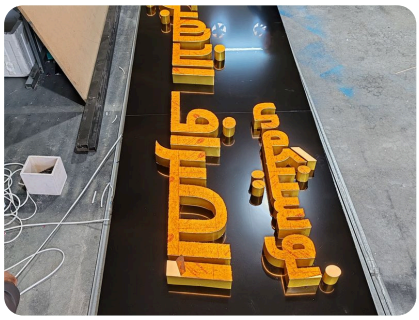

Steel and welding

The steel frames, poles and structures that hold signs, billboards and booths.

Printing

Printed panels, banners, stickers, wraps and branded materials.

LED lighting

Lit channel letters, light boxes and LED modules, wired and tested before they leave.

Installation

Our own crew delivers and installs across Erbil and the Kurdistan Region.

WARRANTY

Built to last in Erbil's heat

Lifetime

Stainless-steel structures

Covers all structural frames, fabricated parts and support poles.

2 years

Panels and plastic components

Covers plastic parts, panels and visual components.

Entrance sign

Burger King
Food truck wrap

HOW WE WORK

From your first message to an installed sign

Get in touch

Message us on WhatsApp or email with a description or photo of what you need.

Details and price

We talk through the size, materials and where it goes, then send you a price and a timeline.

Design and approval

We send you a design to approve before we cut or build anything.

Fabrication

We build your sign or structure to the approved design: steel frame, panels and any custom parts.

Delivery and installation

We deliver and install your finished piece at your location in Erbil or across the Kurdistan Region.

WHO WE WORK WITH

Made for your kind of business

Shops and malls

A shopfront people notice from the street, and that follows Erbil's Kurdish sign rule.

Restaurants and cafés

Signs and graphics that work at night, inside as well as outside.

Companies, clinics, hotels

Your brand on every wall, door and vehicle, all matching.

NGOs and public offices

Registration documents and formal written quotations with the price.

Exhibitors

Local and foreign companies showing at Erbil's trade fairs.

Fleets

Every vehicle in the same design, including the ones you add later.

CLIENTS
